10th	D. R. Kanya High School, Amalner, Jalgaon.		2010	90.18%

PROFESSIONAL EXPERIENCE   May'17–till date

Software Developer, Verdantis Technologies Pvt. Ltd, Mumbai.

Product: **Ultria** - Contract LifeCycle Management

Ultria, a CLM web-application felicitating contract lifecycle from drafting to utilization to expiration and compliance. It includes several essential steps of contracting as Request, authoring, approve, negotiate, sign, capture and comply.

I got to work on different modules as 'Request portal'; which was further integrated with 'Salesforce', 'Workflow' (for reviewing the contracts at several stages), 'Negotiation' 'Signing', etc.

My responsibilities include:

- Developing solutions by studying client requirements / project key features
- Write well designed, testable, efficient code.
- Designing Restfull API services compatible for various platforms as backend for mobile APK as well as web application.
- Upgrading the versions of technologies used timely (eg. Spring, hibernate upgrades).
- Analysis and implementation plan for reducing the number of calls made to the database.
- Documentation and collaborative problem solving with multiple teams.

OTHER PROJECTS {Curricular- Individual Projects}

Projects	Title	Technologies used	Duration
1	Stationary Needs (E-commerce Website).	Spring MVC, Hibernate, Web Sockets, Angular JS, Bootstrap.	2 Months
2	Webinar (Collaboration Platform).		2 Months

Degree Project: Paperless Library Automation and Security**.**
